Applicants for license under this section shall forward with their application a fee of ten dollars. (Id. § 5.)

62. Revocation of License.—The license of any person to practice pharmacy in the District of Columbia may be revoked if such person be found to have obtained such license by fraud; or to be addicted to the use of any narcotic or stimulant, or to be suffering from physical or mental disease, in such manner and to such an extent as to render it expedient that in the interests of the public his license be canceled; or to be of an immoral character; or if such person be convicted in any court of competent jurisdiction of any offense involving moral turpitude. It shall be the duty of the major and superintendent of police of said District to investigate any case in which it is discovered by him, or made to appear to his satisfaction, that any license issued under the provisions of this act is revocable and to report the result of such investigation to the Board of Supervisors in Medicine and Pharmacy, which board shall, after full hearing, if in their judgment the facts warrant it, revoke such license. The board shall make a written report of its findings after such hearing, which report, with a transcript of the entire record of the proceedings, shall be filed with the Commissioners of the District of Columbia, and, if the board's finding shall be adverse to the person seeking reissuance of his license or permit, such license or permit shall stand revoked and annulled at the expiration of thirty days from the filing of such report, unless within said period of thirty days a writ of error shall be issued as hereinafter provided, in which event said license or permit shall stand suspended until the final determination of the court of appeals upon such writ of error. If an exception is taken to any ruling of the board on matter of law, the exception shall be reduced to writing and stated in the bill of exceptions with so much of the evidence as may be material to the question or questions raised, and such bill of exceptions shall be settled by the board and signed by the secretary within such time as the rules of the board may prescribe.

Any party aggrieved by the decision of the said board may seek a review thereof in the Court of Appeals of the District of Columbia by petition under oath setting forth concisely, but clearly and distinctly, the nature of the proceeding before said board, the trial and determination thereof, and the particular ruling upon matter of law to which exception has been taken, said petition to be presented to any justice of the Court of Appeals within thirty days after the filing of the report of said board with the commissioners, with such notice to the board as may be required by the rules of the Court of Appeals. If the justices shall be of the opinion that the action of the board ought to be reviewed, a writ of error shall be issued from the Court of Appeals, within such time as may be prescribed by that court, a transcript of the record in the case sought to be reviewed, and the Court of Appeals shall review said record and affirm, reverse, or modify the judgment in accordance with law.

Every license to practice pharmacy and every permit to sell poisons for use in the arts or as insecticides and every current renewal of such permit shall be conspicuously displayed by the person to whom the same has been issued in the pharmacy, drug store, or place of business, if any, of which the said person is the owner or manager. (Id. § 1883.)

Scalesmen, Weighers of Cotton, and Others to be Sworn.—It shall not be lawful for any scalesman, salesman, or other person, in any of the cities, towns, or villages of this State, to weigh any bale, bag, or package of cotton, tierce or half-tierce of rice, or any other article of produce disposed of by weight, without first taking and subscribing an oath, before some person authorized by law to administer it, that he will justly, impartially, and without deduction, weigh all such cotton and all other articles of produce disposed of by weight that may be shown to him for that purpose, and tender a true account thereof to the party or parties concerned if so required. (Pol. C. 1914, vol. 1, § 1844.)

(c) **Compensation; Duties; Scales Tested.**—As compensation for the weighing, grading, issuing certificates, as to weights and grades, and stamping same upon the bale of cotton, such weigher and grader shall have for such service, and be allowed to charge the party desiring to have said cotton weighed and graded the sum of twenty cents per bale. It shall be the duty of the weigher and grader or his deputy, upon their appointment to provide a platform and scales with ample facilities for handling cotton with speed and at a minimum cost, at which platform or platforms, all cotton sold in said market or shipped may first be weighed, graded and stamped if so desired by the seller, producer, or buyer, and upon the application by the parties, it shall be the weigher's duty to immediately weigh, grade and stamp upon the cotton weights, grade, and issue to the applicant a certificate showing the same and enter the same in a book to be kept by him. Tare on Rice.—The tare to be allowed on rice shall be the actual tare, as nearly as can be determined, except in cases of the sale of a single tierce, half-tierce, or barrel, where a tare of ten per centum shall be allowed, unless otherwise agreed on between the buyer and seller. (Id. § 1847.)

183. Tare on Other Articles.—In other cases where tare is usually allowed, the actual tare, as nearly as the same can be ascertained, shall be allowed, except where the seller and purchaser may expressly agree upon a different rule. (Id. § 1848.)

184. No Deduction to be Made for Turn of Scales, Etc.—It shall not be lawful for any purchaser or weigher to make any deduction from the weight of any article for or on account of the draft or turn of the scales or steelyard, under a penalty, for every such offense, of five hundred dollars, to be recovered in any court having jurisdiction, one-half to go to the informer by whom the suit may be brought, and the other half to the use of the county where the offense may be committed. (Id. § 1849.)

185. (Id. § 1850.)

4. Power of Commissioner and Inspectors Making Inspection.—The State Food Commissioner, and such inspectors and agents as shall be duly authorized for the purpose, when and as often as they may deem it necessary for the purpose of determining whether any manufactured food complies with the law, shall examine the raw materials used in the manufacture of food products and determine whether any filthy, decomposed or putrid substance is used in their preparation. They may also examine all premises, carriages or cars where food is manufactured, transported, stored or served to patrons, for the purpose only of ascertaining their sanitary condition and examining and taking samples of the raw material and finished products found therein; but nothing in this Act shall be construed as permitting such officers to inquire into, or examine methods or processes of manufacture, or requiring or compelling proprietors or manufacturers, or packers of proprietary or other food products, to disclose trade rights, or secret processes, or methods of manufacture. Said commissioner, inspectors and agents shall also have power and authority to open any package, can or vessel, containing or supposed to contain, any article manufactured, sold or exposed for sale, or held in possession with intent to sell, in violation of the provisions of this Act, or laws that now exist, or that may hereafter be enacted in this State, and may inspect the contents thereof, and may take samples therefrom for analysis. The employees of railroads, express companies, or other common carriers, shall render to them all the assistance in their power, when so requested, in tracing, finding, or disclosing the presence of any article prohibited by law, and in securing samples thereof as herein provided for. (Id. ¶ 2.)

5. Refusal to Assist Inspector a Misdemeanor.—Whoever, by himself, his agent, employee, or servant, hinders, obstructs or in any way interferes with any inspector, analyst, or officer appointed hereunder, in the performance of his duty, or in the exercise of his powers as defined in this Act, or whoever being an employee of a railroad, express company, or other common carrier refuses or fails upon request to assist the State Food Commissioner, the assistant commissioner, the State Analyst, or any inspector appointed hereunder in tracing, finding or disclosing the presence of any article of food prohibited by law and in securing samples thereof as provided for in section 2 [¶ 2] of this Act, shall be deemed guilty of a misdemeanor and shall be punished as hereinafter provided for. (Id. ¶ 3.)

6. Samples—To be Divided and Sealed—Analysis—Prima Facie Proof.—The person taking such sample as provided for in section 2 [¶ 2] of this Act, shall in the case of bulk or broken package goods, divide the same into two equal parts, as nearly as may be, and in the case of sealed and unbroken packages, he shall select two of said packages, which two said packages shall constitute the sample taken, and properly to identify the same, he shall, in the presence of the person from whom the same is taken, mark or seal each half or part of such sample with a paper seal or otherwise, and shall write his name thereon and number each part of said sample with the same number, and also write thereon the name of the said dealer in whose place of business the same is found, and the person from whom said sample is taken shall also write his own name thereon, and at the same time the person taking the sample shall give notice to such person from whom said sample is taken that said sample was obtained for the purpose of examination by the State Food Commissioner. One part of said sample shall be taken by the person so procuring the same to the State Analyst or other competent person appointed for the purpose of making examinations or analyses of samples so taken, and the person taking such sample shall tender to the person from whom it is taken the value of that part thereof so retained by the person taking said sample; the other part of said sample shall be delivered to the person from whom said sample is taken. If the person from whom said sample is taken has recourse upon the manufacturer or guarantor either by operation of law or under contract for any failure on the part of said sample to comply with the provisions of this Act, then said person

from whom said sample is taken shall retain for the period of six months that part of said sample so delivered to him in order that said manufacturer or guarantor may have the same examined or analyzed if he so desires: Provided, that the person procuring said sample may securely pack and box that part thereof retained by him and send the same to the State Analyst or other competent person appointed hereunder, and the testimony of the person procuring said sample that he did procure the sample and that he sealed and numbered the same as herein provided, and that he wrote his name thereon, and that he packed and boxed said part thereof and sent the same to the State Analyst or other competent person appointed hereunder, and the testimony of the person analyzing said sample that he received the same in apparent good order, that said sample was sealed, and that the number thereof and the name of the sender, as herein provided for, was on said sample, and that the seal at the time the same was received was unbroken, shall be prima facie evidence that the sample so received is the sample that was sent, and that the contents thereof are the same and in the same condition as the time the person so procuring said sample parted with the possession thereof, and the testimony of said two witnesses as above shall be sufficient to make such prima facie proof. (Id. ¶ 4.)

7. Manufacturing Adulterated or Misbranded Food Misdemeanor.—It shall be unlawful for any person to manufacture for sale within the State of Illinois any article of food or drink which is adulterated and misbranded within the meaning of this Act. It shall be unlawful for any person to use filthy, decomposed, putrid, rotten, deleterious or poisonous substances as a constituent part of manufactured food, or in the manufacture of any food. Any person who shall violate any of the provisions of this section shall be guilty of a misdemeanor, and, on conviction thereof, shall be punished according to the provisions of this Act: Provided, that no article of food shall be deemed misbranded or adulterated within the provisions of this Act when intended for export to any foreign country or purchaser, and prepared or packed according to the specifications or directions of the foreign country to which said article is intended to be shipped; but if said article shall be in fact sold or offered for sale for domestic use or consumption, then this proviso shall not except said article from the operations of any of the other provisions of this Act. (Id. ¶ 5.)

8. Possession or Control of Unlawful Food.—The having in possession or control of any food which violates any of the provisions of this Act with intent to sell the same or to use the same in violation of this Act is hereby prohibited; and whoever shall have in his possession or control with intent to sell or offer for sale any food which violates any of the provisions of this Act or with intent to use any such food in violation of the provisions of this Act shall be guilty of a misdemeanor and punished as herein provided. The possession or control of any food which violates any of the provisions of this Act shall [be] held to be prima facie evidence that such possession or control is or was with intent to sell or use such food in violation of this Act.

Whoever shall have possession or control with intent to sell of any food which violates any of the provisions of this Act shall be held to have known the true character, quality and name of such food. (Id. ¶ 6.)

9. Term Food Defined.—The term "food," as used herein, shall include all articles used for food, drink, confectionery or condiment by man or other animals, whether simple, mixed or compound, and any substance used as a constituent in the manufacture thereof. (Id. ¶ 7.)

10. Defines Adulteration.—For the purpose of this act, an article shall be deemed to be adulterated—

In case of confectionery:

First—If it contains terra alba, barytes, talc, chrome yellow, paraffin, mineral fillers, or poisonous substances, or poisonous color or flavor.

Second—If it contains any ingredient deleterious or detrimental to health, or any vinous, malt, or spirituous liquor or compound, or narcotic drug.

In case of food:

First—If any substance has been mixed or packed with it so as to reduce or lower or injuriously affect its quality, strength, or purity.

Second—If any substance has been substituted wholly or in part for the article.

Third—If any valuable constituent of the article has been wholly or in part abstracted or left out: Provided, that in the manufacture of skim or separated cheese the whole or part of the butter fats in the milk may be abstracted.

Fourth—If it be mixed, colored, powdered, coated, polished, or stained in any manner whereby damage or inferiority is concealed, or it is made to appear better or of greater value than it really is.

Fifth—If it contains any added poisonous or other added deleterious ingredient which may render such article injurious to health: Provided, that when in the preparation of food products for shipment they are preserved by an external application, applied in such a manner that the preservative is necessarily removed mechanically, or by maceration in water, or otherwise, and directions for the removal of said preservatives shall be printed on the covering of the package, the provisions of this Act shall be construed as applying only when such products are ready for consumption; and formaldehyde, hydrofluoric acid, boric acid, salicylic acid and all compounds and derivatives thereof are hereby declared unwholesome and injurious.

Sixth—If it consists in whole or in part of a filthy, decomposed, or putrid, infected, tainted, or rotten animal or vegetable substance or article or any portion of an animal unfit for food, whether manufactured or not, or if it is the product of a diseased animal, or one that has died otherwise than by slaughter. (Id. ¶ 8.)

11. **Misbranded Defined.**—The term "misbranded," as used herein, shall apply to all articles of food or drink, or articles which enter into the composition of food or drink, the packages or labels of which bear any statement, design or device regarding such article, or the ingredients or substance contained therein which shall be false or misleading in any particular; and to any such products which are falsely branded as to manufacturer, packer, or dealer who sells the same or as to the state, territory, or country in which it is manufactured or produced. That for the purpose of this Act an article shall also be deemed to be misbranded—

In case of food:

First—If it be an imitation of or offered for sale under the distinctive name of another article, or if it does not conform to the standards set forth in this Act.

Second—If it be so labeled or branded as to make the identity of the manufacturer, packer, or dealer who sells or offers the same for sale uncertain or doubtful; or which is so labeled or branded as to indicate on the receptacle, vessel, or container the name of any firm or corporation other than the firm or corporation actually manufacturing, packing, or dealing in the article or product so sold or offered for sale; or if it be labeled or branded so as to deceive or mislead the purchaser, or purports to be a foreign product when not so, or if the contents of a package as originally put up shall have been removed in whole or in part and refilled by contents of a different quality, or of a different manufacturer, packer or dealer, or if it shall fail to bear a statement on the label of the quantity or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, or acetanilid, or any derivative or preparation of any such substance contained therein.

Third—If in package form, the quantity of the contents be not plainly and conspicuously marked on the outside of the package in terms of weight, measure, or numerical count: Provided, however, that reasonable variation shall be permitted and tolerances and also exemptions as to small packages shall be established by rules and regulations made in accordance with the provisions of section 38 of this Act.

Fourth—If it be a manufactured article of food or food sold in package form, and is not distinctly labeled, marked, or branded with the true name of the article and with either the name of the manufacturer and place of manufacture, or the name and address of the packer or dealer who sells the same, or if its label does not conform to the regulations set forth in this Act.

Fifth—If the package containing it or its label shall bear any statement, design, or device regarding the ingredients of the substance contained therein, which statement, design, or device shall be false or misleading in any particular: Provided, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in following cases:

First—In case of mixture or compounds which may be now or from time to time hereafter known as articles of food under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another article, if the name be accompanied on the same label or brand with a statement of the place where the article has been manufactured or produced.

Second—In case of articles labeled, branded, or tagged so as to plainly indicate that they are compounds, imitations, or blends and the word "compound," "imitation," or "blend," as the case may be, is plainly stated on the package in which it is offered for sale: Provided, that the term "blend" as used herein, shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only; and as applied to alcoholic beverages, only those distilled spirits shall be regarded as "like substances" which are distilled from the fermented mash of grain and are of the same alcoholic strength:

And provided, further, that nothing in this Act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods, which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this Act may require to secure freedom from adulteration or misbranding.

Third—In the case of mixtures of corn syrup (glucose) or corn sugar (dextrose) or corn sugar syrup, with cane or beet sugar (sucrose) or cane or beet sugar syrup, in food, if the maximum percentage of corn syrup (glucose), or corn sugar (dextrose), or corn syrup, in such article of food be plainly stated on the label. (Id. ¶ 9.)

12. Condemnation and Confiscation of Illegal Foods.—Any article of food or drink or liquor that is adulterated or misbranded within the meaning of this Act, or that is made, labeled, or branded contrary to the provisions of this Act, or that does not conform to the definition or analytical requirements provided in this Act, shall be liable to be proceeded against in any court of record or before any judge thereof, or before any justice of the peace within whose jurisdiction the same may be found, and seized for condemnation and confiscation; and authority and jurisdiction are hereby vested in the several courts of record, the judges thereof in vacation, and the several justices of the peace, to issue the warrant and to hear and determine the proceedings herein provided for. Such proceedings shall be by complaint, verified by affidavit, and in the name of the People of the State of Illinois against the article or articles proceeded against, particularly describing the same, the place where they are located, the name of the person, firm, or corporation in whose possession they are found, and wherein they violate the provisions of this Act. Thereupon said court, judge, or justice of the peace shall issue a warrant directed to the sheriff, bailiff, or any constable of the county, commanding such officer to seize, and take into his possession the article or articles described in the complaint, and bring the same before the court, judge, or justice of the peace who issued the warrant, and to summon the person, firm, or corporation named in the warrant, and any other person who may be found in possession of the said articles to appear at the time and place therein specified, which service shall be made in the same manner as service of process in civil cases in such court or before such justice of the peace. The warrant shall be returnable not less than five (5) days nor more than fifteen (15) days from the date of issuing the same, and may be executed and served at any time before the return day thereof; and the hearing shall be at the time and place therein specified unless good cause is shown for a continuance. Upon the hearing the complaint may be amended, and any person, firm, or corporation that appears and claims the said article or articles shall be required to file its claim in writing. The hearing shall be summary in its nature, and except as herein otherwise provided, shall conform, as near as may be, to the proceedings in civil cases before such court, judge, or justice of the peace: Provided, that either party may demand a trial by jury, and an appeal or writ of error shall lie at the instance of either party to the proper court and no bond shall be required of the people. And if such article is condemned as being adulterated or misbranded, or of a poisonous or deleterious character within the meaning of this Act, or as made, labeled, or branded contrary to the provisions of this Act, or as not conforming to the definitions or analytical requirements provided in this Act, the same shall be confiscated and disposed of by destruction or sale, as the court, judge, or justice of the peace may direct, and the proceeds thereof, if sold, less the legal costs and charges, shall be paid into the treasury of the State of Illinois, but such article shall in no instance be sold contrary to the provisions of this Act: Provided, however, if the food seized consists of a number of separate and distinct articles assembled together in containers, or in lots, or otherwise, and it shall appear to the court that certain of said articles violate the provisions of this Act and certain other of said articles do not violate the provisions of this Act, then in such cases, if the articles can be conveniently separated, the court may order that such articles be separated and the costs of such separation shall be taxed as other costs of suit. The court may order such articles as are not in violation of this Act be released to the claimant or owner thereof, and in cases where the claimant or owner does not appear or refuses to accept such articles the court shall order such articles sold, and the proceeds thereof, after the payment of all costs and charges shall be held subject to the order of the court, and if the claimant or owner thereof do not appear and demand the same within thirty days after said order, the court may at any time thereafter order the proceeds of said sale forfeited and confiscated and paid into the treasury of the State of Illinois, but that part of the articles which violated the provisions of this Act shall be disposed of or destroyed as herein directed: Provided, further, that upon the payment of the costs of such proceedings and the execution and delivery of a good and sufficient bond to the State Food

Commissioner for the use of the people of the State of Illinois to the effect that such articles shall not be used, sold, or otherwise disposed of contrary to the provisions of this Act and under such other conditions or supervision as may appear necessary, the court may, by order, direct that such articles be delivered to the owner therefor. (Id. ¶ 10.)

13. Mutilating Label Prohibited.—Whoever shall deface, change, erase, or remove any mark, label, or brand provided for by this Act with intent to mislead, deceive, or to violate any of the provisions of this Act, shall be held liable to the penalties of this Act. (Id. ¶ 15.)

14. Not to Manufacture Food With Impure or Unclean Milk or Cream.—No person, firm or corporation shall manufacture from unclean, impure, unhealthful or unwholesome milk, or from cream from the same, any article of food. (Id. ¶ 18.)

15. Sale of Preservatives Prohibited.—No person, firm or corporation shall manufacture for sale, advertise, offer or expose for sale, or sell, any mixture or compound intended for use as a preservative or other adulterant of milk, cream, butter or cheese, nor shall he manufacture for sale, advertise, offer or expose for sale, or sell any unwholesome or injurious preservative or any mixture or compound thereof intended as a preservative of any food: Provided, however, that this section shall not apply to pure salt added to butter and cheese. (Id. ¶ 23.)

16. Illegal Foods to be Seized.—Whenever the Commissioner or his agents shall have ground for suspicion that any article of food, found in possession of any person, firm or corporation, is adulterated or misbranded within the meaning of this Act, he may seize such article of food and make an inventory thereof and shall leave a copy of such inventory with the party holding such suspected goods and tag the same "suspected"; and he shall notify in writing the person, firm or corporation in whose possession it may be found, not to offer the same for sale or sell or otherwise dispose of the same until further notice in writing from the commissioner. Whereupon the commissioner shall forthwith cause a sample of said article of food to be examined or analyzed, and if the same shall be found to be adulterated or misbranded within the meaning of this Act the commissioner shall proceed with a hearing and subsequent proceedings as provided in this Act. If, however, such examination or analysis shall show that such article of food complies with the provisions of this Act, the person, firm or corporation, in whose possession such article of food is found shall forthwith be notified in writing that said seizure is released, and authority given to dispose of such article of food. Such seizure may be had without a warrant and said commissioner, and all inspectors and agents appointed pursuant to law are hereby given full power and authority of "policemen." Any court having jurisdiction, upon receiving proof of probable cause for believing in the concealment of any food or dairy products or substitutes therefor, or imitation thereof, kept for sale or for a purpose, or had in possession or under control, contrary to the provisions of this Act, or other laws which now exist or may be hereafter enacted, shall issue a search warrant and cause a search to be made in any place therefor and to that end may cause any building, enclosure, wagon or car to be entered, and any apartment, chest, box, locker, tub, jar, crate, basket or package to be broken open and the contents thereof examined. (Id. ¶ 30.)

17. Search Warrants to be Issued for Illegal Food.—All warrants issued pursuant to section 29 [¶ 30] hereof shall be directed to the sheriff bailiff or some constable of the county where such food or dairy products may be supposed to be concealed, commanding such officer to search the house or place where such food or dairy product, or substitutes thereof, or imitation thereof, for which he is required to search, is believed to be concealed, which place and the property to be searched for, shall be designated in the warrant, and to bring such food or dairy product or substitute therefor or imitation thereof, when found, and the person in whose possession the same is found, before the magistrate who issued the warrant, or before some other court or magistrate having jurisdiction of the case, to be proceeded against as hereinbefore provided for in section 10 [¶ 10] of this Act. (Id. ¶ 31.)

18. State's Attorney to Assist.—It shall be the duty of the State's Attorney in any county of this State when called upon by the commissioner or any of his assistants, to render any legal assistance in his power to execute the law and to prosecute cases arising under the provisions of this Act: Provided, that no person shall be prosecuted under the provisions of this Act for selling or offering for sale any article of food or drugs as defined herein, when the same is found to be adulterated or misbranded within the meaning of this Act, in the original unbroken package in which it was received by said person when he can establish a guaranty signed by the wholesaler, jobber, manufacturer or other party residing in this State, from whom he purchased such article, to the effect that the same is not adulterated or misbranded in the original unbroken package in which said article was received

by said dealer, within the meaning of this Act, designating it. Said guaranty to afford protection, shall contain the name and address of the party or parties making the sale of such article to such dealer, and in such case said party or parties shall be amenable to the prosecutions, fines, and other penalties as provided for in this Act: Provided, that no such guaranty shall operate as a defense to prosecutions for the violations of this Act; first, if the dealer shall continue to sell after notice by the State Food Commissioner that such article is adulterated or misbranded within the meaning of this Act; second, if the dealer shall fail to preserve for the manufacturer or guarantor and deliver to him upon demand the sample left with him by the commissioner or his agent. (Id. ¶ 32.)

19. State Board of Health* to Furnish Samples.—The State Board of Health may submit to the commissioner or any of his assistants samples of food or drink for examination or analysis, and shall receive special reports showing the results of such examination or analysis. (Id. ¶ 33.)

(Id. ¶ 38.)

25. Food Commissioner to Make Rules and Regulations.—The State Food Commissioner shall make rules and regulations for carrying out the provisions of this Act, and shall have power to make rules and regulations for the analyzing and reporting the results thereof, of articles submitted for analysis by the State Board of Health, and regulating the analyzing and reporting thereon of samples taken under any law or laws of the United States by any person hereunder, or furnished by any officer or employee charged with the enforcement of the laws of the United States relative to the manufacture, sale, or transportation of adulterated, misbranded, poisonous, or deleterious foods, dairy products, or articles manufactured from dairy products or liquors. The director shall promulgate regulations prescribing such tolerances as may be deemed necessary permitting such variations from standards fixed under this Act, as are reasonably incident to the proper grading of agricultural products, or to the manufacture of containers for such products. (Id. ¶ 94.)

163. Promulgation of Standards.—In promulgating the standards or any alterations or modifications of such standards, the director shall specify the date or dates when the same shall become effective, and shall give public notice not less than thirty days in advance of the date when the standard for any agricultural product shall become effective and one year in advance of the date when a standard for any container shall become effective by such means as he deems proper, and he is hereby authorized to employ reasonable methods for diffusing information concerning the standard that may be fixed by him for any agricultural product or container. (Id. ¶ 95.)

164. Adoption of Federal Standards—Co-operation With Federal Government.—The director is authorized to fix and promulgate as the official standard for this State for any agricultural product or container the standard for such product or container which may have been promulgated or announced therefor under the authority of the Congress of the United States, and in carrying out the provisions of this Act the director is authorized to co-operate with the United States or any department thereof in accomplishing the matters and things provided for herein. The director is authorized to fix, assess and collect or cause to be collected fees for such services when they are performed by employees or agents of the Department of Agriculture. Pending investigations the directors may suspend a license temporarily without a hearing. (Id. ¶ 97.)

166. Disputes as to Grading—Appeal.—Whenever any quantity of any agricultural product shall have been inspected hereunder and a question arises as to whether the certificate issued therefor shows the true grade, classifications, quality or condition of such product, any interested person, subject to such regulations as the director may prescribe, may appeal the question to him and he is authorized to cause such investigation to be made and such tests to be applied as he may deem necessary and to determine and issue a finding of the true grade or classification of the product or of the quality or condition thereof. Whenever an appeal shall be taken to the director under this Act, he shall charge and assess and collect or cause to be collected, a reasonable fee, to be fixed by him, which shall be refunded if the appeal is sustained. (Id. ¶ 98.)

and if, upon such analysis, said officer shall find that said article does not so correspond he shall give not less than fifteen days' notice in writing to the person who is the manufacturer thereof to show cause why said article should not be dealt with as an intoxicating liquor, such notice to be served personally or by registered mail, as such officer may determine, and shall specify the time when, the place where, and the name of the agent or official before whom such person is required to appear. If the manufacturer of said article fails to show to the satisfaction of the Attorney General or Commissioner of Prohibition as the case may be, that the article corresponds to the descriptions and limitations provided in section 4 [¶ 4] of this Act, his permit to manufacture and sell such article shall be revoked. The manufacturer may by appropriate proceedings in a court of equity have the action of said officer reviewed, and the court may affirm, modify or reverse his finding as the facts and law of the case may warrant, and during the pendency of such proceedings may restrain the manufacture, sale or other disposition of such article. It shall give the name and address of the person to whom it is issued and shall designate and limit the acts that are permitted and the time when and place where such acts may be performed. No permit shall be issued until a verified written application shall have been made therefor, setting forth the qualification of the applicant and the purpose for which the liquor is to be used.

In the event of the refusal of any application for any permit, provided for in this Act, the applicant may have a review of his decision before a court of equity in the manner provided in section 6 [¶6] hereof.

All blanks and forms for applications, returns, permits, prescriptions, etc., which may be required under the provisions of this Act shall, whenever feasible, be similar to the blanks and forms for applications, returns, permits, prescriptions, etc., required by the laws of the United States: Provided, that in every case where any prescription, label or record is required to be written, or written and kept, or cancelled and kept, under this Act, and a like record or act is required under the laws of the United States, it shall be deemed sufficient for the purposes of this Act, if

the person so required to write, or write and keep, or cancel and keep such prescription, label or record shall comply with the requirements of the Federal Government in regard thereto: Provided, further, that nothing contained in this paragraph shall be construed to relieve any such person from the duties imposed by section 41 [¶ 42] hereof, but the provisions of said section are hereby made to expressly apply to every such person and to all such prescriptions, labels and records.

Nothing in this Act shall be held to apply to the manufacture, sale, transportation, possession, or distribution of wine for sacramental purposes, or like religious rites, except section 7 [¶ 7] (save as the same requires a permit to purchase) and section 10 [¶ 10] hereof, and the provisions of this Act prescribing penalties for the violation of either of said sections. No person to whom a permit may be issued to manufacture, transport, or sell wines for sacramental purposes or like religious rites shall sell, barter, exchange, or furnish any such to any person not a rabbi, minister of the gospel, priest, or an officer duly authorized for the purpose by any church or congregation, nor to any such except upon an application duly subscribed by him, which application, authenticated as regulations may prescribe, shall be filed and preserved by the seller. The head of any conference or diocese or other ecclesiastical jurisdiction may designate any rabbi, minister, or priest or supervise the manufacture of wine to be used for the purposes and rites in this section mentioned, and the person so designated may, in the discretion of the officer empowered to grant permits, be granted a permit to supervise such manufacture. Not more than a total quantity of one pint of intoxicating liquor shall be prescribed for use by the same person within any period of ten days and no prescription shall be filled more than once, and no person shall procure or accept or have filled any prescription for more than one pint of liquor within said period of ten days. Any registered pharmacist, local registered pharmacist, or registered assistant pharmacist filling a prescription for liquor shall at the time endorse upon it over his own signature the word "canceled," together with the date when the liquor was delivered, and then make the same a part of the record that he is required to keep as herein provided.

Such hearing shall be held within fifty miles of the place where the offense is alleged to have occurred, unless the parties agree on another place. If it is found that such person has been guilty of wilfully violating any such laws, as charged, or has not in good faith conformed to the provisions of this Act, such permit shall be revoked, and no permit shall be granted to such person within one year thereafter. Should the permit be revoked by the officer granting it, the permittee may have a review of his decision before a court of equity in the manner provided in section 6 [¶ 6] hereof. During the pendency of such action such permit shall be temporarily revoked. (Id. ¶ 9.)

254. Record of Manufacture, Sale, Purchase for Sale, or Transportation of Liquor.—No person shall manufacture, purchase for sale, sell or transport any liquor without making at the time a permanent record thereof showing in detail the amount and kind of liquor manufactured, purchased, sold, or transported, together

with the names and addresses of the persons to whom sold, in case of sale, and the consignor and consignee in case of transportation, and the time and place of such manufacture, sale or transportation. The Attorney General, or in case the office of Commissioner of Prohibition shall be created, then such Commissioner may prescribe the form of such record, which shall at all times be open to inspection as in this Act provided. No one shall permit any sign or billboard containing such advertisement to remain upon one's premises. But nothing herein shall prohibit manufacturers and wholesale druggists holding permits to sell liquor from furnishing price lists, with descriptions of liquor for sale, to persons permitted to purchase liquor, or from advertising alcohol in business publications or trade journals circulating generally among manufacturers of lawful alcoholic perfumes, toilet preparations, flavoring extracts, medicinal preparations, and like articles: Provided, however, that nothing in this Act shall apply to newspapers published in foreign countries when mailed to this country. (Id. ¶ 17.)

Drugs or Foods, Adulteration; Definitions.—It shall be unlawful for any person, firm or corporation, within this State to manufacture for sale within this State, offer for sale therein, or sell within this State, any drug or article of food which is adulterated or misbranded within the meaning of this act. That the term "drug," as used in this act, shall include all medicines and preparations recognized in the United States Pharmacopœia or National Formulary for internal or external use, and any substance or mixture of substances intended to be used for the cure, mitigation or prevention of disease of either man or other animals. The term "food," as used herein, shall include all articles used for food, drink, confectionery or condiment by man or other animals, whether simple, mixed or compound. (Burns' Anno. Stats. 1926, § 8224.)

2. Adulteration; What Constitutes.—For the purpose of this act, an article shall be deemed as adulterated:

In case of drugs—

First. If, when a drug is sold under or by a name recognized in the United States Pharmacopœia or National Formulary, it differs from the standard of strength, quality or purity, as determined in the test laid down in the United States Pharmacopœia or National Formulary, official at the time of investigation; provided, that no drug defined in the United States Pharmacopœia or National Formulary shall be deemed to be adulterated under this provision if the standard of strength, quality or purity be plainly stated upon the bottle, box or other container thereof, although the standard may differ from that determined by the test laid down in the United States Pharmacopœia or National Formulary.

Second. If its strength or purity fall below the professed standard or quality under which it is sold.

In case of food—

First. If any substance or substances have been mixed with it so as to reduce, or lower, or injuriously affect its quality or strength.

Second. If any substance has been substituted wholly or in part for the article.

Third. If any valuable constituent has been wholly or in part abstracted from it.

Fourth. If it consists in any proportion of a filthy, diseased, decomposed, putrid or rotten animal or vegetable substance, whether manufactured or not, or, in the case of milk, if it is the product of a diseased animal.

Fifth. If it is mixed, colored, coated, polished, powdered or stained in a manner whereby damage or inferiority is concealed, or whereby it is made to appear better or of greater value than it really is.

Sixth. If it contains any added poisonous or other added deleterious ingredient.

Seventh. If it contains any added antiseptic or preservative substance except common table salt, saltpetre, cane sugar, vinegar, spices, or, in smoked food, the natural products of the smoking process, or other harmless preservatives whose use is authorized by the State Board of Health. (Id. § 8225.)

slaughterhouse yard is not efficient, if maggots or filthy pools or hog wallows exist in the slaughterhouse yard or under the slaughterhouse; if the water supply used in connection with the cleansing or preparing of carcasses is not pure and unpolluted; if hogs are kept in the slaughterhouse yard or fed therein on animal offal, or if the odors of putrefaction plainly exist therein; if carcasses or parts of carcasses are transported from place to place when not covered with clean white cloths, or if kept in unclean or bad smelling refrigerators, or if kept in unclean or bad smelling cold storage rooms. It shall be the duty of all peace and all health officers to seize any animal carcass or parts of carcasses, or any domestic or wild fowl, eggs, game or fish found to be unwholesome and which are intended for sale or offered for sale for human food which has been slaughtered and prepared, handled or kept under insanitary conditions as herein defined, and to deliver the same forthwith to and before the nearest circuit or city judge or justice of the peace, together with all information obtained, and said judge or said justice of the peace, upon a proper affidavit being filed, shall issue [a] warrant for the arrest of all persons shown to have violated the provisions of this section and said cause shall be tried at an early date thereafter. Any person, persons, firm or corporation found guilty of violating any of the provisions of this section shall be fined as provided in section 10 of this act [8233], and the meat, fowl, eggs, game or fish in question shall be drenched with kerosene oil or rendered into grease and tankage or otherwise made unfit for food, as the court may direct. (Id. § 8227.)

4. Misbranded; Definition; Drugs; Food.—The term "misbranded," as used herein, shall apply to all drugs, or articles of food, or articles which enter into the composition of food and drugs, the package or label of which shall bear any statement, design or device regarding such article, or the ingredients or substances contained therein which shall be false or misleading in any particular, and to any food or drug product which is falsely branded as to the State, territory or country in which it is manufactured or produced. That for the purposes of this act an article shall also be deemed to be misbranded:

In the case of drugs—

First. If it be an imitation of or offered for sale under the name of another article.

Second. If the contents of the package, as originally put up, shall have been removed, in whole or in part, and other contents differing in quality or quantity from such original contents shall have been placed in such package, or if the package fail to bear a statement on the label of the quantity or proportion of any alcohol, morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, acetanilide, phenacatine, antipirine, or any derivative or preparation of any such substance or substances contained therein: Provided, That the said requirements as to statement of contents shall not be operative until March 1, 1908: Provided, that the requirements of this section shall not apply in the case of medicinal prescriptions written by licensed physicians resident in the State of Indiana.

In the case of food—

First. If it be an imitation of or offered for sale under the distinctive name of another article.

Second. If it be labeled or branded so as to deceive or mislead the purchaser, or purport to be a foreign product when not so, or if the contents of the package, as originally put up, shall have been removed, in whole or in part, and other contents shall have been placed in such package, or if it fail to bear a statement on the label of the quantity, or proportion of any morphine, opium, cocaine, heroin, alpha or beta eucaine, chloroform, cannabis indica, chloral hydrate, acetanilide, phenacatine or antipirine, or any derivative or preparation of any such substance or substances contained therein: Provided, That such statement shall not be required as to articles of food in the hands of wholesale or retail dealers on or prior to March 1, 1908:

Third. If in the package form and the contents are stated in the terms of weight or measure, they are not plainly and correctly stated on the outside of the package.

Fourth. If the package containing it or its label shall bear any statement, design or device regarding the ingredients or the substances contained therein, which statement, design or device shall be false or misleading in any particular; provided, that an article of food which does not contain any added poisonous or deleterious ingredients shall not be deemed to be adulterated or misbranded in the following cases:

First. In the case of mixtures or compounds which may be now or from time to time hereafter known as articles of food, under their own distinctive names, and not an imitation of or offered for sale under the distinctive name of another

article, if the name be accompanied on the same label or brand with a statement of the place where said article has been manufactured or produced.

Second. In the case of articles labeled, branded or tagged so as to plainly indicate that they are compounds, imitations or blends, and the word "compound," "imitation" or "blend," as the case may be, is plainly stated on the package in which it is offered for sale; provided, that the term blend as used herein shall be construed to mean a mixture of like substances, not excluding harmless coloring or flavoring ingredients used for the purpose of coloring and flavoring only; and, provided, further, that nothing in this act shall be construed as requiring or compelling proprietors or manufacturers of proprietary foods which contain no unwholesome added ingredients to disclose their trade formulas, except in so far as the provisions of this act may require to secure freedom from adulteration or misbranding. (Id. § 8228.)

5. Unbroken Packages; Guarantee of Maker.—No dealer shall be prosecuted under the provisions of this act for selling or offering for sale any article of food or drugs, as defined herein, when same is found to be adulterated or misbranded within the meaning of this act in the original, unbroken package in which it was received by said dealer, when he can establish a guarantee, signed by the wholesaler, jobber, agent or other party residing in the United States from whom he purchased such article, or if a proper printed guarantee of the manufacturer with his address be upon the package or container, to the effect that the same is not adulterated or misbranded in the original unbroken package in which said article was received by said dealer, within the meaning of this act, designating it, or within the meaning of the food and drugs act, enacted by the Senate and House of Representatives of the United States of America, in Congress assembled June 30th, 1906. Said guarantee, to afford protection, shall contain the name and address of the party or parties making the sale of such articles to such dealer, or of the manufacturer thereof as herein specified, and, in such case, said party or parties shall be amenable to the prosecution, fines and other penalties which would attach in due course to the dealer, under the provisions of this act. (Id. § 8229.)

Every person offering or exposing for sale or delivering to a purchaser any drug or article of food included in the provisions of this act shall furnish to any inspector or other officer or agent appointed hereunder who shall apply to him for the purpose and shall tender to him the value of the same a sample sufficient for the purpose of the analysis of any such drug or article of food which is in his possession. Whoever hinders, obstructs or in any way interferes with any inspector or other officer or agent appointed hereunder in the performance of his duty, shall, upon conviction, be fined in any sum not exceeding \$100. (Id. § 8230.)

7. prescribing penalties, repealing all conflicting acts, and declaring an emergency," approved February 25, 1905. (Id. § 8231.)

8. Salary of Commissioner.—The State Food and Drug Commissioner, who is also chemist to the State Board of Health, shall receive an annual salary of \$2,500, to be paid out by certificates issued by the State Board of Health and attested by the secretary; and, on presentation of said certificates, the Auditor of State shall draw his warrant for the amount certified on the State Treasurer, who shall pay the same from the appropriations for the enforcement of this act, which sum shall constitute the entire salary of said officer, both as State Food and Drug Commissioner and chemist to the State Board of Health. (Id. § 8232.)

9. Penalties.—Except as elsewhere provided in this act, any person, persons, firm or corporation violating any of the provisions of this act shall, upon conviction for the first offense, be punished by a fine of not less than \$10.00 nor more than \$30.00; for the second offense, by a fine of not less than \$25.00 nor more than \$100.00; and for the third and subsequent offenses, by a fine of \$100.00 and imprisonment in the county jail for not less than thirty nor more than ninety days. (Id. § 8233.)

10. (Id. § 8234.)

(Burns' Anno. Stats. 1926, § 2655.)

12. All work done in the State laboratory of hygiene shall be done exclusively and entirely for the public benefit, and no fees shall be charged. (Id. § 8143.)

(Id. § 8145.)

17a. Prescribing Secret Medicines.—Whoever prescribes any drug or medicine to another, the true nature and composition of which he does not, if inquired of, truly make known, but avows the same to be a secret medicine or composition, and thereby endangers the life of such other person, shall, on conviction, be fined not less than thirty dollars, nor more than one hundred dollars, and be imprisoned in the county jail not less than sixty days nor more than six months. (Id. § 2434.)

17b. If, within ten days, it is found that the food can not be reconditioned to the approval of the commissioner, then the commissioner shall institute proceedings for the condemnation and destruction of said adulterated food, in the manner herein provided. (Act of Mar. 9, 1927, § 1.)

17c. Libel for Condemnation of Goods.—The commissioner shall cause to be filed in the Circuit Court of the county in which the goods are situated, a libel for condemnation against said goods. The proceeding shall be brought in the name of the State of Indiana by the prosecuting attorney of such county against the goods, and libel shall be verified by the commissioner. The libel shall describe the goods, state their location, state the name of the person, firm, or corporation in actual possession, state the name of the owner, if known to the commissioner, and allege the particular adulteration which is claimed to exist, and otherwise conform to the requirements of a libel for condemnation of adulterated food in the United States courts. (Id. § 2.)

17d. Duty of Sheriff to Seize Goods.—Upon the filing of such a libel, the judge of the court, or, if in vacation, the clerk thereof, shall promptly cause process to issue to the sheriff commanding him to seize the goods described in the libel and to hold the same for further order of the court. The sheriff shall, at the time of seizure, serve a copy of said process upon the owner of said goods. (Id. § 3.)

17g. Change of Venue, Etc.—The right of change of venue from the county and the right of change of judge and the right of trial by jury shall exist as in civil cases. (Id. § 6.)

17h. Proceedings.—At any time before trial, the defense may file with the court, or the clerk thereof in vacation, a written election to divide the libeled goods into lots, each of said lots to be described in the election in such way as to enable it to be distinguished. If different parties are defending as to separate lots, the court shall proceed to docket as many separate actions as there are separate defenders. The commissioner may dismiss as to any lot or lots without prejudice to his proceeding against all other lots in the same seizure. Those defending may consent to the destruction of any lot or lots without prejudice to their right to defend against the condemnation of all other lots in the same seizure. (Id. § 7.)

17i. Determination of Adulterated Goods.—The court or jury trying the cause shall determine whether the contents of each separate lot are adulterated and the judgment shall so specify and further order the destruction by the sheriff of all lots found to be adulterated, and the return by the sheriff of all lots not found to be adulterated. (Id. § 8.)

17j. Personal Judgment May Not be Rendered; Exception.—Under no condition shall any personal judgment be rendered against any defender, except that, when any goods are ordered destroyed, the court may give judgment against the person, firm or corporation defending as to such condemned goods, for that part of the costs occasioned by such defender. (Id. § 9.)

17k. When Sheriff to Return Libeled Goods.—Whenever any libeled goods are ordered returned, it shall be the duty of the sheriff to immediately return them to the place of seizure. The sheriff and his bondsmen shall be liable for any damage to said goods while in the custody of the sheriff, which damage was due to negligence, willfulness or carelessness upon the part of the sheriff or his deputies or agents. No subsequent proceeding in said cause, or new trial, shall in any way involve any returned goods. (Id. § 10.)

17l. Appeals.—Any defender may move for a new trial and may appeal to the Appellate Court in the manner provided by law for appeals in civil actions. In a term time appeal the bond shall be fixed in such amount as to cover the reasonable costs of preserving the condemned goods for the probable time of appeal and the court costs. If an appeal is not prosecuted to determination, or if the judgment of the trial court is affirmed, the defender or defenders praying the appeal shall be liable for the costs adjudged against them in the trial court, the costs of appeal, and, if a term time appeal, the actual reasonable cost of preserving the condemned goods during the appeal period. (Id. § 11.)

17m. Duty of Appellate Court.—In all term time appeals provided for herein, the Appellate Court shall advance such causes and dispose of them as speedily as possible with due regard to the rights of the parties. (Id. § 12.)

17n. Judgment Inadmissible in Evidence.—No judgment in a proceeding provided for by this act shall be admissible as evidence in any other legal proceeding. (Id. § 13.)

17o. Determination of Costs.—All costs not adjudicated against the defenders in accordance with the provisions herein, shall be determined and collected in the manner provided by law for the determination and collection of costs in unsuccessful criminal prosecutions. (Id. § 14.)

17p. Procedure and Practice to Conform to Civil Actions.—Where not otherwise herein provided, the procedure and practice shall conform, as nearly as possible, to the procedure and practice of civil actions. (Id. § 15.)

17q. Duty of Food and Drug Commissioner.—The State Food and Drug Commissioner upon examination of any article or articles of food as defined in section 1 of this act, and finding them as complying with the requirements of the food and drugs act of 1907,* said commissioner shall then be required to issue to owner of said goods a certificate showing his approval thereof. If, after inspection, such board shall find that any bakery is being operated in violation of the provisions hereof, notice in writing shall be given to the proprietor, wherein shall be stated the particulars in which such bakery is not being properly conducted, and fixing a reasonable time, not less than thirty days, in which such conditions shall be remedied. If the requirements of such notice shall not be complied with, said board shall order such bakery closed and it is hereby empowered to take all necessary steps to enforce such order; provided, that if any person, firm or corporation shall feel aggrieved by any order of said board, it shall have the right to appeal to the Circuit or Superior Court in the county in which is located said bakery; provided, further, that on the taking of said appeal the owner or operator of said bakery shall furnish bond to the approval of the boards; and, provided, further, that said appeal shall be taken within a period of thirty days from the order of said board. (Id. § 8213.)

Every person engaged in such work shall wash the hands and arms after using toilet rooms or water-closets. Employees or other persons affected with any venereal disease, smallpox, diphtheria, scarlet fever, yellow fever, tuberculosis or consumption, bubonic plague, Asiatic cholera, leprosy, trachoma, typhoid fever, epidemic dysentery, measles, mumps, whooping cough, chickenpox, or any other cutaneous or infectious disease, shall not work or be permitted to work in any such bakeries or be permitted to handle any of the products therein or delivered therefrom. The freedom of said bakery employees from any such disease shall be evidenced by a certificate of medical examination, made at such times and such certificate shall be in such form and so kept, as shall be prescribed by the State Board of Health. Such medical examinations may be made by any competent physician, including State, city, town and county health officials, or their agents, of recognized standing, and whose

qualifications for making such examinations are approved by the State Board of Health. Any such physician or health officer who gives such certificate of freedom from disease without thorough examination, or who gives such certificate knowing or suspecting the employee to have, or to be infected with, any of the diseases specified in this section, and any employee or other person engaged in any of the work above mentioned, without first procuring a certificate, as herein prescribed, showing freedom from any such contagious or infectious disease, shall be deemed guilty of a violation of this act and subject to the penalties provided for violation thereof. The State Board of Health shall prescribe such reasonable time after the taking effect of this act within which the provisions of this section for the physical examination of employees shall become effective. (Id. § 8214.)

21. Examination of Employees; Fees.—The State Board of Health shall make all necessary rules for carrying into effect the foregoing section, including the forms of certificates and the time and place for examination of such employees, and including reasonable and uniform fees for the said examination. The analysis or examination of any specimens necessary in connection with such medical examination of employees shall be made free at the laboratories of the State Board of Health, or any city or town department of health, as the State Board of Health may designate. The State Board of Health, or any city, town or county board of health, may order any such medical examination, through its own qualified officers or agents, at any time deemed necessary, which examination shall be free and at the expense of the board making the examination; provided, however, that any employee or employer may have his or her own physician present at any such examination. (Id. § 8215.)

22. Water Used; Certificate.—All water used for mixing the dough or used in the mixing of any other bakery products shall be pure and wholesome. In case the water supply is taken from a well, the baker shall have a certificate of the purity of said water supply from the State Board of Health, or from any city or county health board within the State of Indiana. Bakers shall not use the water from wells the water of which is not certified to be pure and wholesome. (Id. § 8216.)

Boxes or other receptacles for the storing or receiving of bread and other bakery products, before and after the retail stores and selling places are open, shall be so constructed and placed as to be free from the contamination of streets, alleys and sidewalks, and shall be raised at least ten inches from the sidewalk or street, and shall be kept clean and sanitary, and no bread shall be placed in any such box along with any other articles of food other than bakery products. (Id. § 8217.)

24. Materials Used; Labels.—All materials used in the production or preparation of bakery products shall be stored, handled and kept in a way to protect them from spoiling and contamination, and no material shall be used which is spoiled or contaminated, or which may render the bread or other bakery products unwholesome or unfit for food. The ingredients used in the production of bread and other bakery products and the sale or offering for sale of bread and other bakery products shall comply with the provisions of the Indiana laws against adulteration and misbranding. No ingredients shall be used which may render the bread or other bakery products injurious to health. No ingredients shall be used which may deceive the consumer, or which lessens the nutritive value of the bakery product, without being plainly labeled, branded or tagged, or having a sign making such facts plain to the purchaser or consumer under rules to be prescribed by the State Board of Health; provided, however, that in case of bread to be sold by the loaf, such labeling shall be, in the case of unwrapped bread, placed upon the same sticker as hereinafter provided to show the name of the manufacturer and the net weight or measure of the loaf. (Id. § 8218.)

25. Handling and Sale; Return of Purchase; Permanent Containers.—All handling or sale of bread or other bakery products and all practices connected therewith shall be conducted at all times so as to prevent the distribution of contamination or diseases among consumers, so as to prevent the distribution of the infection in bread commonly known as "rope," or other bakery infections, and so as to protect the food supply against waste. No bread or other bakery products, except as hereinafter provided, shall be returned from any consumer or other purchaser to the dealer or baker, nor from any dealer to the baker, and no baker or dealer shall, directly or indirectly, accept any returns or make any exchange of bread or other bakery products from any dealer, restaurant or hotel keeper, consumer or other person, and all

bread and all other bakery products shall be kept moving to the consumer in as direct a line as may be practicable and without unreasonable delay and without any exchange, return or practice whatsoever which may disseminate contamination, disease or fraud among consumers or infection among bake shops, or which may cause waste in the food supply. The Indiana State Board of Health shall make such reasonable rules as may be necessary for carrying into effect the foregoing provisions of this section; provided, that this section shall not be construed to apply to crackers or to such other bakery products as are packed at the place of production in cartons, cans, boxes, or similar permanent containers, and where the product is so packed or sealed at the place of production as to fully protect the freshness and wholesomeness of the product from contamination, adulteration, deterioration and fraud in the channels of trade, and which remains in the original unbroken package in which such bakery product has been packed, except in so far as may be necessary to prevent waste in the food supply. Provided, further, the State Board of Health may, by rules, establish such exemptions as may be necessary to facilitate the sale of any accumulated or unsold stocks of wholesome bread or other bakery products, but any such exemptions or sales shall not be in violation of the expressed purposes of this section. Provided, further, that the phrase "permanent containers" shall not be construed to include the paper or parchment wrappers as used in wrapping loaves of bread. (Id. § 8219.)

26. Standard Weights of Bread Sold by the Loaf.—Bread to be sold by the loaf, made by bakers engaged in the business of wholesaling and retailing bread, shall be sold based upon any of the following standard weights and no other; namely, a loaf weighing three-quarters of a pound, a loaf weighing one pound, a loaf weighing one and one-half pounds and loaves weighing two pounds, or some other multiple of one pound. These shall be the standard weights for bread to be sold by the loaf and such bread shall not be sold of other weights. The State Commissioner of Weights and Measures shall adopt and establish by rules such reasonable tolerances or variations within which these weights of standard loaves shall be kept. Provided, however, that such tolerances and variations shall not exceed one ounce per pound over and one ounce per pound under the standard unit weight. Every loaf of bread made or procured for the purpose of sale, sold or offered for sale, shall have affixed thereon, in a conspicuous place, a label upon which there shall be printed, in plain type, the weight of the loaf, stated in pounds or fraction of pounds, or both, as the case may be, together with the business name of the baker or manufacturer of the loaf. In the case of wrapped bread, such information shall be stated in a plain position upon the wrapper of each loaf, and, in the case of unwrapped bread, shall be stated upon a label no larger than one by one and one-half inches in size and not smaller than one inch by three-quarters of an inch, and such label affixed to an unwrapped loaf shall not be affixed in any manner, or with any gums or pastes, which are insanitary or unwholesome. It shall be the duty of the Commissioner of Weights and Measures, and of the sealers of weights and measures of any city, town or county, or any agent thereof responsible for the enforcement of weight and measure laws and ordinances under regulations prescribed by the Commissioner of Weights and Measures, to enforce the provisions of this section. (Id. § 8220.)

27. Penalty For Violation.—Any person, firm or corporation who shall violate any of the provisions of this act shall be subject to a fine of not less than ten dollars nor more than one hundred dollars, and each day's continuance of any practice, act or condition prohibited herein shall constitute a separate offense within the meaning of this act. (Id. § 8221.)

If the finding and judgment of the court be not guilty as to each of such charges, the same shall be by the clerk of said court certified to said board, and it shall thereupon make an order and set aside its order of revocation. If judgment of guilty of any such charges be awarded in said cause, the cost of such proceeding shall be recovered of the accused, and a fee of ten dollars shall be taxed therein in favor of the prosecuting attorney and the order of revocation made by said board shall be and remain in effect. *Chapter 100, "Permits to Licensed Pharmacists," including sections 2072-2129.

305. Notice of Application.—Notice of an application for a permit shall state the name of the applicant, with the firm name, if any, under which he is doing business, the purpose of the application, the particular location of the place where the proposed business is to be carried on; that the required petition is or will be on file in the clerk's office of the court, naming it, at least ten days before the first day of the term, naming it, when the application will be made. (Id. § 2075.)

306. Service of Notice.—Said notice must be served in the following manner:

1. By publication thereof once each week for three consecutive weeks in a newspaper regularly published and printed in the English language, and of general circulation in the township, town, or city where the applicant proposes to conduct the business, or, if none be regularly published therein, then in one of the papers selected by the board of supervisors for the publication of its proceedings, the last publication of which shall be not less than ten nor more than twenty days before the first day of the term at which the hearing is to be had.

2. By serving a copy of said notice personally upon the county attorney in the same manner and for the same length of time as is required of original notices in said courts. (Id. § 2076.)

307. Appearance.—The county attorney shall appear in all cases, and any number of persons, not less than five, filing any remonstrance, may also appear in person or by counsel and resist the application. (Id. § 2077.)

308. Hearing.—All applications shall be tried at the first term after completed service has been made of the required notice, if the business of the court shall allow. (Id. § 2078.)

309. Hearing in Vacation.—If for any reason the application cannot be tried in term time, the same may be heard by the judge in vacation, at a time to be fixed by the court and made of record. (Id. § 2079.)

310. Consolidation of Applications.—If more than one permit is applied for in the same locality, the applications shall be heard at the same time, unless for cause shown it be otherwise ordered. (Id. § 2080.)

311. Remonstrances.—The county attorney, or one or more citizens of the county wherein the application is made may file a written remonstrance against the granting of the permit. All remonstrances shall specifically state the reasons therefor, and be filed in the clerk's office by noon of the first day of the term, unless further time be given, and shall be so filed before the day fixed for the trial. (Id. § 2081.)

312. Limitation on Granting Permit.—No permit shall be granted unless the court shall find from competent evidence that all the averments in the petition are true, that the reasonable convenience and necessities of the people, considering the population and all the surroundings, make the granting of the permit proper, and that the applicant is possessed of the character and qualifications required, worthy of the trust to be reposed in him, and likely to discharge the same with fidelity. Any licensed pharmacist who has been or is hereafter convicted of violating any provision of any statute relating to intoxicating liquors, or who for the purpose of avoiding a prosecution for such violation has surrendered or hereafter surrenders a permit issued under this chapter, shall be forever barred from securing a permit under this chapter. The court may grant or refuse any application. (Id. § 2082.)

313. Bond.—No permit shall issue until the applicant shall execute to the State a bond in the penal sum of one thousand dollars, with good and sufficient sureties to be approved by the clerk of the court, conditioned that he will well and truly observe and obey the laws of the State now or hereafter in force in relation to the sale of intoxicating liquors, that he will pay all fines, penalties, damages, and costs that may be assessed or recovered against him for a violation of such laws during the time for which the permit is granted. (Id. § 2083.)

314. Liability of Sureties.—The principal and sureties in said bond shall be liable thereon, jointly and severally, for all civil damages and costs that may be recovered against the principal in any action brought by a wife, child, parent, guardian, employer, or other person under the provisions of this title. (Id. § 2084.)

315. Custody of Bond—Action.—The bond, after being approved and recorded by the clerk, shall be deposited with the county auditor, and suit may be brought thereon at any time by the county attorney, or by any person for whose benefit the same is given. (Id. § 2085.)

316. New Bond—Cancellation of Permit.—If at any time the sureties on the bond shall file with the court or clerk a written request for release, or become insolvent, or be deemed insufficient by the court granting the permit, or its clerk, such court or clerk shall require a new bond to be executed within a reasonable time to

be fixed. If the permit holder fails or neglects to furnish a new bond within the time so fixed, the permit shall from that date become null and void. (Id. § 2086.)

317. Proceeds of Forfeiture.—The clear proceeds of all money which may be collected by the State for breaches of the bond shall go to the school fund of the county. (Id. § 2087.)

318. Oath.—In addition to giving the bond required, the applicant shall take and subscribe the following oath, which shall be indorsed upon the bond: "I, ..., do solemnly swear (or affirm) that I will well and truly perform all and singular the conditions of the within bond, and keep and perform the trust confided in me to purchase, keep, and sell intoxicating liquors. I will not sell, give, or furnish to any person any intoxicating liquors otherwise than as provided by law, and especially I will not sell or furnish any intoxicating liquors to any person who is not known to me personally, or duly identified, nor to any intoxicated person, or persons who are in the habit of becoming intoxicated; and I will make true, full, and accurate reports as required by law; and said reports shall show every sale and delivery of such liquors made by me, or for me, during the months embraced therein, and all the intoxicating liquors sold or delivered to any and every person, as returned." (Id. § 2088.)

319. Issuance of Permit.—Upon taking said oath, filing said bond, and paying the costs and fee herein provided, the clerk of the court shall issue a permit to the applicant authorizing him to buy, keep, and sell intoxicating liquors, not including malt liquors, for medical purposes, as hereinafter provided. (Id. § 2089.)

320. Location and Tenure.—The permit so issued shall specify the building, giving the street and number or location, in which intoxicating liquors may be sold by virtue of the same, and the length of time, not exceeding five years, the same shall be in force, unless sooner revoked. (Id. § 2090.)

321. Fee.—On and after January 1, 1925, each permit holder under this chapter shall, on the first day of January, April, July, and October of each year, pay into the county treasury, as a fee for the granting of such permit, all proceeds of all sales of intoxicating liquors in excess of two hundred per cent of the wholesale price of such liquors. (Id. § 2091.)

322. Price Lists.—The pharmacy examiners shall from time to time fix the fair and reasonable wholesale price of intoxicating liquors for all points in this state and furnish such price lists to permit holders. The fixing of said prices shall be for the sole purpose of furnishing a basis for the computation of said fee. (Id. § 2092.)

323. Limitation on Sales.—A permit holder in making sales under his permit shall comply with the following:

1. Only spirituous and vinous liquor, the sale of which has been authorized by federal statutes or regulations and upon which the federal internal revenue tax has been paid, shall be sold.

2. Sales shall be made only on prescriptions which have been issued in accordance with federal and state statutes and regulations, and which have been issued by physicians licensed under the laws of this state and actually and in good faith engaged in this state in the general practice of their profession.

3. No permit holder shall sell or furnish, on any prescription, any vinous liquor that contains more than twenty-four per cent of alcohol by volume, nor sell or furnish on any prescription more than one-fourth of one gallon of vinous liquor, or any such vinous or spirituous liquor that contains separately or in the aggregate more than one-half pint of alcohol, for use by any person within any period of ten days.

4. No prescription for said liquors shall be filled if the permit holder has reason to believe that the physician issuing the same is prescribing for other than medical purposes or that a patient is securing, through one or more physicians, quantities of such liquors in excess of the amount necessary for medical purposes or in excess of the aggregate amount specified in paragraph three above.

5. No prescription for liquor shall be filled except by the permit holder himself or by a pharmacist licensed under the laws of this state and in the employ of such permit holder.

6. No prescription shall be filled more than once. (Id. § 2093.)

324. Request.—Before selling or delivering any intoxicating liquors, a written request therefor must, after being fully, accurately, and legibly filled out in ink in the presence of the applicant and by the person making the sale, be signed by the applicant in his true name, and attested by the holder of the permit. (Id. § 2094.)

(Id. § 2100.)

331. Change in Location.—Upon the expiration of the lease or the destruction of the building where such business is conducted, or for other good and sufficient cause shown, consent in writing of the bondsmen having been obtained therefor, or a new bond given, the District Court of the county which granted said permit, or a judge of said court, may change the place specified in said permit to some other place in the same city, town, or township upon motion therefor. (Id. § 2101.)

332. Notice to County Attorney.—A copy of the application mentioned in the last preceding section, and notice of the time when and the place where the same will be heard, shall be given to the county attorney of the county where said place is situated, at least five days before said hearing. (Id. § 2102.)

333. Violations.—If any holder of a permit shall sell, give, dispose of, or use intoxicating liquors in any manner or for any purpose other than for medical purposes as heretofore authorized, he shall be liable to all the penalties and proceedings provided for in this title. (Id. § 2103.)

334. Prescriptions Prohibited.—No physician shall issue a prescription for vinous or spirituous liquors for other than medical purposes, or in excess of the amount reasonably necessary for such purposes or in excess of the quantity heretofore specified; nor shall he issue or deliver such prescription to a person when he has reasonable grounds for believing that such person will use the liquors obtained thereunder for beverage purposes. (Id. § 2104.)

335. Record of Prescriptions.—Every physician shall keep, in his own handwriting and in his office, a permanent record, legibly written in ink, of every prescription for intoxicating liquors issued by him. Said record shall be alphabetically arranged under the name of the patient and shall show:

(Id. § 2107.)

338. Penalty—Suspension.—Upon conviction for a violation of any provision of the four preceding sections, the court, as a part of the judgment, shall order the certificate or license of such physician to practice his profession suspended for a period of not less than one year nor more than five years. 340. Conviction in Federal Courts.—When a physician or pharmacist, licensed under the laws of this state, is convicted in any federal court of this state of a violation of the federal statutes or regulations relating to intoxicating liquors, or to narcotics, and said judgment has become final, the county attorney of the county where said physician or pharmacist resides shall forthwith file in the office of the clerk of the district court of said county a duly certified copy of said judgment and thereupon said district court, or a judge thereof, shall, on such notice to the defendant in said judgment as the court or judge may prescribe, enter an order suspending for a period of not less than one year nor more than five years the license of such physician or pharmacist to practice his profession in this state. In such proceeding the county attorney shall appear on behalf of the state. (Id. § 2110.)

The fees shall be as provided in actions at law in the district court. (Id. § 2113.)

(Id. § 2115.)

346. Civil and Criminal Liability.—Every permit holder or his clerk, violating this chapter, shall be subject to all penalties, forfeitures, and judgments, and may be prosecuted by all the proceedings and actions, criminal and civil, whether at law or in equity, provided for or authorized by this title, and the permit shall not shield any person who abuses the trust imposed by it or violates the law. (Id. § 2116.)

17. Dairy Commissioner.—There is hereby created the office of the State Dairy Commissioner and immediately upon the taking effect of this act the State Board of Agriculture shall appoint a State Dairy Commissioner and such deputies as in its judgment may be necessary to carry out the provisions of chapter 65, article 7, of the Revised Statutes of Kansas of 1923,* and fix their compensation. Said State Dairy Commissioner and deputies shall act under the control and direction of the State Board of Agriculture and shall be subject to removal by said board. Said State Dairy Commissioner shall be furnished office space in the Statehouse at Topeka. (R. S. 1923, § 75-1401, as amended L. 1925, c. 261.)

18. Inspections and Regulations.—It shall be the duty of the State Dairy Commissioner to inspect or cause to be inspected all the creameries, public dairies, butter, cheese and ice cream factories, or any place where milk or cream or their products are handled or stored within the State, at least once a year, or oftener if possible, and in connection with the board of administration to formulate and prescribe such reasonable rules and regulations for the operation of creameries, butter, cheese and ice cream factories and public dairies as shall be deemed necessary by such board to fully carry out the provisions of this act, and all laws now in force or that may hereafter be enacted relative to dairy products and for the promotion and maintenance of the public health and safety, and also for advancing the value to the outside world of Kansas dairy products. He shall act on such reports and complaints as he may receive from owners and managers of public dairies, creameries, butter, cheese and ice cream factories, or other persons, wherein is reported to him the names and locations of one or more producers of milk or cream, butter, cheese or ice cream who are offering for sale milk, cream, butter, cheese or ice cream that is not fresh and clean; and in such instances he may inspect barns or farmhouses, creameries, factories or other places where dairy products or utensils are produced, kept, handled or sold, give advice and instructions in the proper performance of the work, and where such instructions are disobeyed, to prohibit the sale of unclean or unwholesome milk, cream, butter, cheese or ice cream until such time as his instructions are complied with. It shall further be his duty to condemn for food purposes all unclean or unwholesome milk, cream, butter, cheese or ice cream, wherever he may find them. He shall compile and publish annually statistics and information concerning all phases of the dairy industry in this State, and the manufacturers of dairy products, upon his request, shall furnish the Dairy Commissioner with such reports and statistics as he may require, and such reports shall be used for the purpose of compiling statistical reports of general dairy interest. He shall co-operate with the Kansas State Agricultural College in the holding of farmers' institutes and special dairy meetings in so far as it will not conflict with the performance of his official duties, and in general strive for the promotion of the best interests of the dairy industry throughout the State. He shall preserve in his office all correspondence, records, documents and property of the State pertaining thereto, and turn over same to his successor. The State Dairy Commissioner and his deputies shall each devote his whole time to the duties of his office, and during his term shall hold no other official or business position, nor any professorship in any educational institution. (R. S. 1923, § 65-701.)

19. Authority of Officers; Analysis and Investigations.—In the performance of their official duties the State Dairy Commissioner and his deputies are hereby authorized and empowered to enter, during business hours, all creameries, public dairies, cheese and ice cream factories, or other places where dairy products are manufactured, produced, stored, sold or kept for sale or transportation, for the purpose of inspecting the same; to take samples anywhere of any dairy products or imitation thereof suspected of being made or sold in violation of law, and cause the same to be analyzed or satisfactorily tested by the chemist of the Kansas Experiment Station. Such analysis or tests shall be preserved and recorded as evidence, and the certificate of such test, when sworn to by such chemist, shall be admitted in evidence in all prosecutions that may result under the operation of this act. They shall also have power to examine, under oath or otherwise, any person whom they may believe has knowledge concerning the unlawful operation of any creamery, public dairy, butter, cheese or ice cream factory. The Dairy Commissioner shall have power to issue subpoenas requiring the appearance of witnesses and the production of books and papers, and to administer oaths with

*See Nos. 18-34.

like effect as is done in courts of law in this State. It shall be the duty of any District Court or the judge thereof, upon the application of said State Dairy Commissioner, to issue an attachment for such witnesses, and compel him or them to attend before the commissioner and give testimony upon such matters as he or they shall be lawfully required to give by such commissioner, and said court or judge shall have power, in cases of refusal, to punish for contempt, as in other cases of refusal to obey the orders and process of the court. (Id. § 65-702.)

20. Definition of Terms; Sales.—The term "creameries, public dairies, butter, cheese and ice cream factories," for the purposes of this act, shall be considered to mean such as produce or manufacture for sale dairy products, either at wholesale or retail. All milk or cream, butter, cheese, ice cream, or dairy products, sold or offered for sale shall be delivered pure and fresh and handled with clean utensils. In all cases it shall be unlawful to sell or offer for sale milk or cream from diseased or unhealthy animals or handled by any person suffering from or coming in contact with persons afflicted with any contagious disease. In all prosecutions and proceedings for the enforcement in any of the courts of this State of all laws and regulations of whatsoever nature now in force, or that may hereafter be enacted, pertaining to the production, sale and distribution of dairy products of any kind whatsoever, the standards of purity and the definition of said products shall be such as are hereafter stated, and whosoever shall sell or offer or expose for sale anywhere in this State milk, cream, butter, cheese or ice cream containing any foreign substances or preservatives of any kind whatsoever except common salt, or the milk or cream of any diseased or unhealthy animal, or that shall not comply with the standards hereinafter provided, shall be guilty of a misdemeanor. (Id. § 65-703.)

21. Babcock Test.—It shall be unlawful for any person or persons engaged in buying, selling, testing or handling, or engaged in determining the value of milk, cream or other dairy products by the use of the Babcock test, to give any false reading or any way manipulate the test so as to give a higher or lower per cent of butter fat than the milk, cream or other dairy products actually contain, or to cause any inaccuracy in reading the per cent of butter fat by securing from any quantity of milk, cream or other dairy products to be tested an inaccurate sample for the test. All test tubes, bottles, pipettes or instruments used in connection with testing or determining the value of milk, cream or other dairy products by the use of the Babcock test shall be approved by the State Dairy Commissioner. It shall be unlawful for any person or persons to use any test tube, bottle, pipette or instrument in connection with such test which is not perfectly clean; for the purposes of this act, any unclean test bottle, tube or pipette is declared inaccurate. Only such centrifuge or scales shall be used as shall meet the approval of the State Dairy Commissioner. All tests shall be maintained at a temperature of 130 degrees F. for at least ten minutes before the reading of the per cent of butter fat is made and recorded. In reading cream tests glymol must be used, and the samples under test must be held in a water bath of such a temperature that the tests shall be read at 135 degrees F. The water in bath must extend above the butter fat column in the neck of the bottle. (Id. § 65-704.)

22. Official Tests.—It shall be the duty of the Dairy Commissioner and his deputies and they are hereby authorized to test milk, cream and other dairy products for the purpose of ascertaining the percentage of butter fat or other ingredients contained therein; and if said Dairy Commissioner or any of his deputies shall find upon test that there is a variance of more than one per cent between his test and that made by any person engaged in testing, buying or selling milk, cream or other dairy products, said commissioner or deputy commissioner shall cause his test to be verified and substantiated by the chemist of the Kansas Experiment Station; and if such chemist shall find that the test made by such commissioner or deputy commissioner is correct, the test thus made and verified shall, in all prosecutions for violations of the provisions of this act, be prima facie evidence that the test made by the person engaged in testing, buying or selling such milk, cream or other dairy products was falsely and fraudulently made. (Id. § 65-705.)

23. Cleanliness of Premises; Shipments.—It shall be unlawful for any person, persons, company, partnership, corporation or association, or any manager, employee or agent thereof, to handle milk, cream, butter, ice cream or other dairy products in unclean or insanitary places, or in an insanitary manner, or to keep, store, handle or care for the same in any room, building or inclosed place in which oils, vegetables, eggs, poultry or other strongly flavored products are kept or handled, or in any room having a door opening into any other room or inclosed place in which any such oils, vegetables, eggs, poultry or other strongly flavored products are kept or handled, or to keep, store or handle any milk, cream or other dairy products

in any place opening upon or connected with any cow, horse or hog barns or sheds, or other places where live stock is kept, housed or handled; and the State Dairy Commissioner and his deputies shall have the power and they are hereby authorized to forbid the handling of cream, milk, butter, ice cream or other dairy products in any such place or places as in their judgment are insanitary and will affect the purity of the milk, cream, butter, ice cream or other dairy products handled therein, or that will in any way injure the flavor or market value thereof. It shall be unlawful for any person, persons, firm, partnership, company, corporation or association to handle, test or ship milk, cream or ice cream or other dairy products in unclean or insanitary vessels, or to expose milk, cream or ice cream or other dairy products to flies or other contaminating influences liable to convey pathogenic or other injurious bacteria to such milk, cream, ice cream or other dairy products; and it shall be unlawful for any common carrier to neglect or fail to remove or ship from any railroad depot, on the day of its arrival there for shipment, any milk, cream or other dairy products left at such depot for transportation; and it shall be unlawful for any person, firm, partnership, company, corporation or association using cans in which milk or cream is shipped to allow the same to remain at a railroad depot longer than one day from the date of their arrival, or to allow them to stand more than one day without removing the covers and inverting the cans in pure air. It shall be unlawful to use, lend or lease for use any cream or milk can or ice cream packer or container for any other purpose than the handling, storing or shipping of milk, cream or ice cream. No part of any shipment of cream to be used in the manufacture of food products shall be delivered to the carrier in an unwholesome condition. (c) (1) Butter is the product made by gathering in any manner the fat of fresh or ripened milk or cream into a mass which also contains not less than eighty per cent of butter fat and less than sixteen per cent of water, or such test as shall be established by the Department of Agriculture of the United States: provided, that the amount of butter fat or water in the product of any one manufacturer or in any given quantity of butter shall be determined as hereinafter provided with reference to renovated or process butter; butter may also contain a harmless vegetable coloring matter; (2) renovated or process butter is the product made by melting butter and reworking without the addition or use of chemicals or any substance except milk, cream or salt, and contains not less than eighty per cent of butter fat and less than sixteen per cent of water, or such test as shall be established by the Department of Agriculture of the United States: provided, that the amount of butter fat or water in the product of any one manufacturer, or in any given quantity of butter, renovated or process butter, shall be ascertained in the following manner, to wit: Five samples shall be taken from five different packages of any one manufacturer or from any one tub or churning of butter, and a careful analysis made by the official method adopted by the Association of Agricultural Chemists. If this analysis shall show less than eighty per cent of butter fat or sixteen per cent or more of water, butter or process butter thus analyzed shall be deemed adulterated butter and shall be condemned for food purposes by the commissioners. Renovated or process butter may also contain a harmless vegetable coloring matter. (d) (1) Cheese is the solid and ripened product made by coagulating the casein of milk by means of rennet or acids, with or without the addition of ripening ferments or seasoning; cheese may also contain harmless vegetable coloring matter; (2) whole milk or full cream cheese is cheese made from milk from which no portion of the fat has been removed and contains not less than fifty per cent of butter fat in proportion to total solids; (3) skim milk cheese is cheese made from milk from which any portion of the fat has been removed. (e) (1) Ice cream is a frozen product containing not less than ten per cent milk fat and not less than

a total of twenty per cent milk solids, said product consisting of a flavored, sugar-sweetened mixture of cream or cream and milk, or the sweet, pure products of cream and milk, with or without the addition of gelatine, vegetable gums or such other wholesome stabilizers as may be approved by the State Dairy Commissioner, to which mixture may be added pure, fresh, sweet, wholesome eggs, fruit or fruit juice, cocoa, chocolate or nuts; (2) ice cream offered for sale or sold shall weigh not less than four and three-quarters pounds per gallon. (f) (1) Samples of ice cream taken for official test under section 3 of this act [65-702] shall be taken with a butter trier from a full or nearly full can of ice cream in solid condition or from the ice cream freezer; (2) every person, firm or corporation purchasing ice cream in cans which are to be returned to the manufacturer by a common carrier shall cause such cans to be washed and cleansed as soon as emptied and shall, within seventy-two hours thereafter, deliver the same to the common carrier for shipment to the owner. Failure to do so shall be unlawful and subject the offender to the penalties provided by this act. (g) (1) It shall be unlawful for any person, firm or corporation except churches, lodges or other benevolent societies to engage in the manufacture of ice cream for sale without having first obtained a permit granted by the State of Kansas signed by the Dairy Commissioner and bearing his official seal.
